

PSE10M/PSE10DL

Noblelift Electric Walkie Stacker for Light-duty Applications

INTRODUCTION

The PSE 10M based on the same reliable components and design-character as the electric stacker ECL series with monomast for perfect view to the loads. It is the cost-effective solution for all light-duty stacking applications.

ADVANTAGES:

- Powerful and reliable Italian Drive Unit.
- Ergonomic tiller.
- Stability through additional stabilizers.
- Maintenance free battery.
- Built-in charger.

PSE10M

Economic robust handle

Robust but economic handle with steel housing and plastic coating ensures reliable and comfortable operation.

Stability

4-Wheel design with side stabilizer for excellent view and maneuverability as well as high stability.

Powerful battery

2x12V 85Ah powerful VRL-AGM maintenance free batteries (option 2x12V 106Ah).

Fulfilling standards

Fulfilling the actual valid European standards, also in ISO 13849 performance level.

Italian drive technology

Italian drive system for more power, better energy consumption as well as low noise and maintenance costs.

Easy to maneuver

Smart mono mast for good view to the forks from both sides.

Applications

Ideal economic solution for all indoor low duty and occasional stacking operations.

Robust profile

Robust mast with real mast profiles for perfect stability, accuracy and high lifetime.

PSE10DL

Built-in charger

The built-in charger gives higher autonomy during the application.

Reliable instruments

Battery discharge indicator with automatic lift cut-off function for higher battery lifetime.

Battery deep discharge protection

Smart Mono mast

Numerous trays for storage such as drinks, cell phone, pen and others.
